

# Oklahoma Scholastic Esports

A league for Oklahoma Students in 7th - 12th grades

# About the Founder

Hello,

My name is Brian Morris, I am the founder of Oklahoma Scholastic Esports. I have been an Oklahoma Educator for 9 years now. I founded this league so that we could begin to serve a section of student population that was quite underserved in terms of participation. As a result I built this league with the help of 10 other school districts. We developed our structure that we have now and we continue to push that through to other schools looking to begin a program in our message of “Giving students opportunities to further their education through Esports for their successes and their futures.”
